Check /Live view/Playback

The administrator can control the barrier and modify the status of ANPR when emergency is triggered, put video and related information on the client.

04

Developing

Parking space for VIP

Reservation services

Provide reservation interface or protocol to third-part platform. Customers can reserve a private parking space or choose the nearest parking space to the elevator

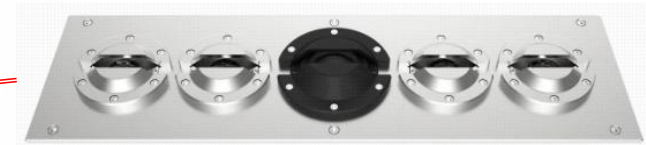

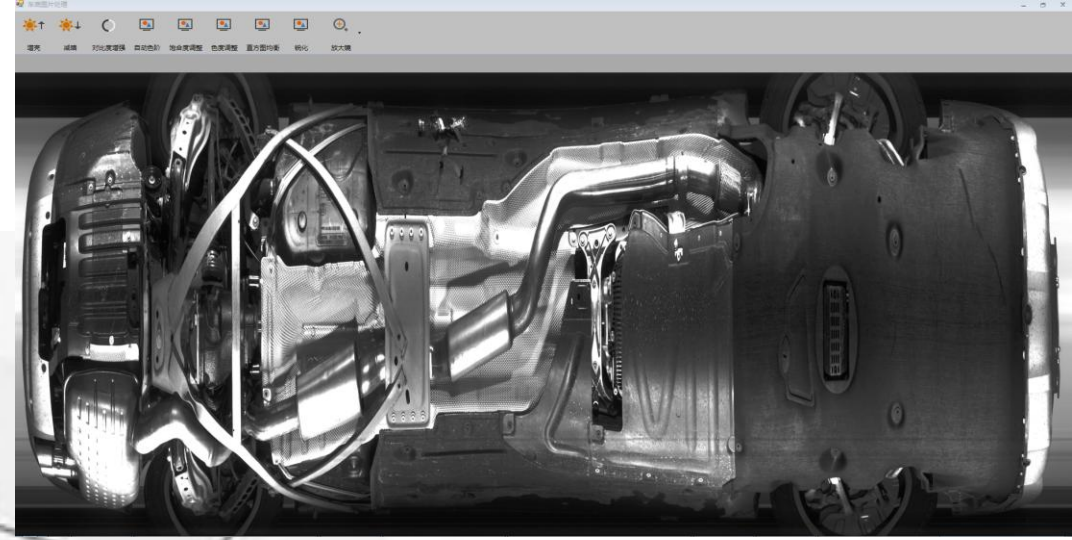

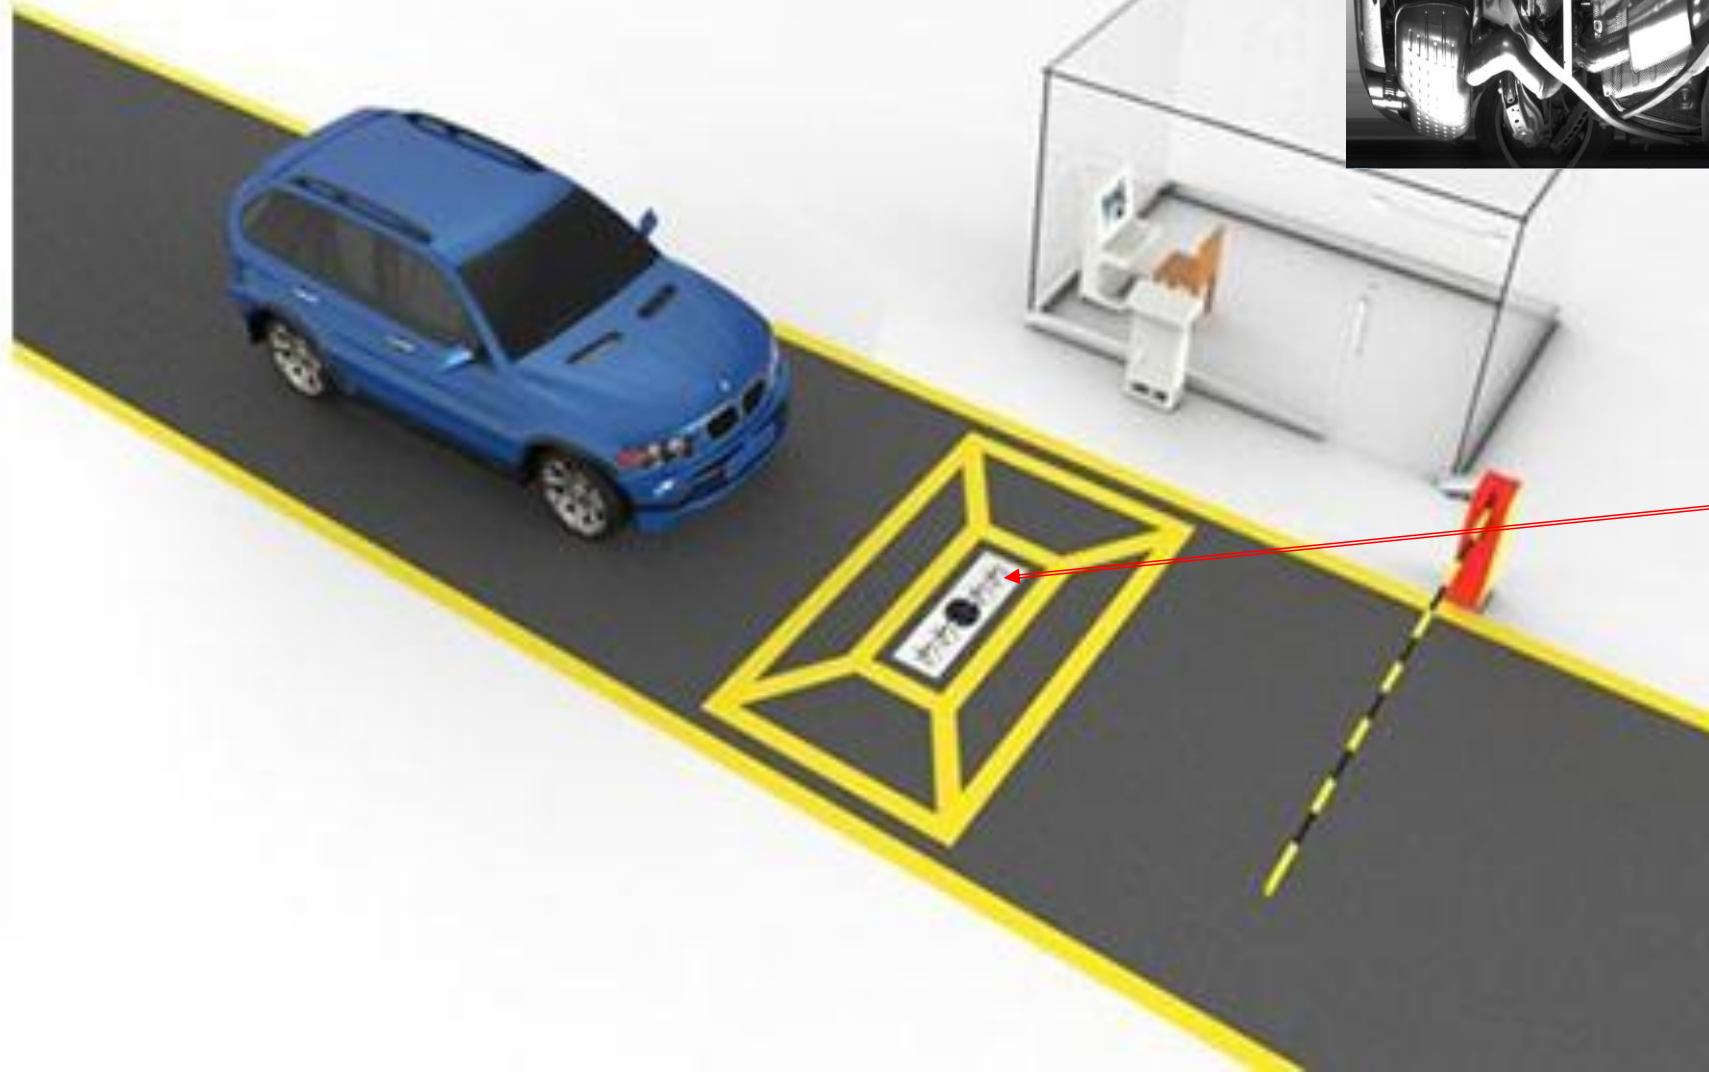

Illegal Occupation Warning

If reserved or special parking place is occupied illegally, there would be a warning for the administrator, and real-time video preview could display automatically. The administrator could activate sound-light alarm to the illegal vehicle.

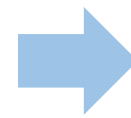

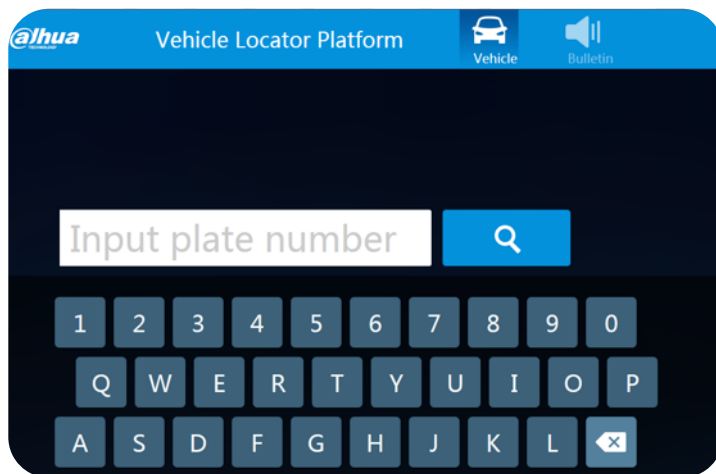

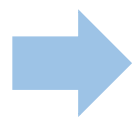

UVSS system

Under car & vehicle surveillance system

Car locator

Car Locator

Through touchscreen kiosks positioned at locations

Input Plate Number

Support fuzzy search, simply find your vehicle and provide picture for confirmation

Show the Best Path

Show the best route from kiosk to the vehicle
